EXPERIENCE

Mobile & Web Application Developer — Marklite Software Nigeria

July 2024 – Present

- Design and develop scalable mobile and web applications using React.js, TypeScript, Flutter, ensuring high performance and maintainability.
- Build and integrate RESTful APIs and backend services, enabling seamless communication between frontend and server-side systems.
- Implement real-time data handling and synchronization, improving application responsiveness and user engagement.
- Optimize application performance through efficient state management, API handling, and database queries.
- Collaborate with cross-functional teams (design, QA, product) to deliver production-ready solutions under tight deadlines.
- Contribute to CI/CD workflows and deployment processes, improving release efficiency and reducing downtime.
- Troubleshoot and resolve production issues, ensuring high system reliability and availability.

Java Tutor — Aptech Nigeria

Nov 2023 – June 2024

- Delivered in-depth training on core and advanced Java concepts, including OOP, multithreading, and Java APIs.
- Taught enterprise application development using Spring and Spring Boot, emphasizing real-world architecture patterns.
- Guided students in building full-stack e-commerce applications using JSP, Servlets, and JDBC.
- Introduced students to software development best practices, including debugging, version control, and clean code principles.
- Mentored students through project development, improving problem-solving and system design skills.

SQL Tutor — Aptech Nigeria

Nov 2023 – Present

- Train students on database design, normalization, and optimization using SQL Server and MySQL.
- Teach advanced querying techniques including joins, indexing, stored procedures, and performance tuning.
- Provide hands-on training in database security, backup strategies, and transaction management.
- Support students in building production-ready database systems aligned with real-world use cases.

SQL Tutor — NIIT Nigeria

Oct 2022 – Oct 2023

- Delivered foundational and advanced training in relational database management systems (RDBMS).
- Introduced best practices for data modeling, query optimization, and scalable database architecture.
- Prepared students for industry-level database roles through practical, scenario-based learning.

Java Tutor — NIIT Nigeria

Oct 2022 – Oct 2023

- Taught Java programming fundamentals and advanced concepts, including collections, exception handling, and file I/O.
- Provided structured learning paths for students transitioning into software engineering roles.
- Mentored students individually, improving code quality and logical thinking.

UI/UX Design

- Design intuitive and user-centered interfaces using Figma and Canva, from wireframes to high-fidelity prototypes.
- Apply UX principles including usability, accessibility, visual hierarchy, and consistency across web and mobile platforms with responsive layouts.
- Translate product requirements into interactive design prototypes for developer handoff and implementation ensuring design feasibility and accurate UI implementation.
- Conduct iterative design improvements based on user feedback and usability considerations.

SKILLS

- SQL Server / MySQL/ MongoDB
- Microsoft Office Expert
- Python
- UI/UX Design (Figma, Canva)
- RDBMS
- Java, JDBC, JSP & Servlet
- HTML5 & CSS
- JavaScript, Typescript & React.js
- Responsive Web Design
- Mobile App Development (Java & Kotlin)
- Dart & Flutter
- Spring & Spring Boot
- Hibernate

LANGUAGES

- English — Native/Bilingual
- Igbo — Native
- Hindi — Learning

PROJECTS

- Simple Calculator using Java (GUI)
- Hangman Game using Java (GUI)
- Tic-Tac-Toe using Java (GUI)
- Trivia App using Java (GUI)
- Event Booking Simulation using Python
- SQL Server data storage system
- Responsive celebrity website (HTML5 & CSS)
- Shopping app using JSP & Servlet

EDUCATION

Diploma in Information Technology — Software Engineering

NIIT Ikeja Lagos, Nigeria • 2021 – 2023

Secondary School Certificate (SSCE)

Babs Fafunwa Millennium Senior Grammar School • 2017 – 2020
